
Digital Marketing

Professor: Alberto Lempira Guevara & Daniel Stone

E-mail: alberto.guevara@bsm.upf.edu, danielstone@gmail.com

Office hours: by appointment

Course Description

Digital technologies have changed the way marketing works nowadays. No Business can afford not to be present in the digital world. From large companies selling mass-consumed products and services to entrepreneurs and small businesses that tailor their products to a niche audience; their audience is online most of the time, and it is our task as marketers to get them to know us and purchase from us.

This course presents a compact yet thorough approach to every critical aspect of the digital marketing world covering everything from organic positioning and digital advertisement to the optimization of its budget spending.

This course uses a practical and dynamic approach. All the sessions will be in the form of seminars in which the student's participation is expected and promoted.

Objectives

Students will finish this course knowing and dominating every key aspect and platform required to run a digital marketing campaign at present. They will also be able to identify digital opportunities and translate them into marketing strategies.

Methodology

The sessions are developed as a mix of "master class" and seminars, where each topic is presented through real-life cases using the platforms and tools professionals of Digital Marketing should master in the work field.

MSc in Marketing – Digital Marketing

*The information contained in this document is for information purposes only and may be subject to change in the adaptations of each academic year. The definitive Guide will be available to students enrolled in the virtual space before the start of each subject.

Every session there will be specific assignments that will help each student to practice the discussed topic.

Students are encouraged and expected to actively participate in all the sessions as this will be considered in the evaluation criteria.

Workshops: there will be at least one workshop session during the course that will count towards the participation/attendance grade in which students will be able to work with one of the faculties topics discussed in class on their individual FMT projects.

Competencies to acquire

CE5. Plan through the mastery of specific techniques, the different elements of the marketing mix that are connected to the marketing of a company

CE6. Integrate all the elements within the strategy of complete and efficient communication of the brand message to use it as a working reference with the communication agencies.

Results of learning

R1. Discriminate between the various decisions that make up the marketing mix for execution.

R2. Apply the analysis techniques to facilitate the decision making corresponding to the elements of the marketing mix based on the results.

R3 Make management recommendations for all elements of the marketing mix.

C6

R1. Discriminate between the different possible message and execution options for a communication plan.

MSc in Marketing – Digital Marketing

*The information contained in this document is for information purposes only and may be subject to change in the adaptations of each academic year. The definitive Guide will be available to students enrolled in the virtual space before the start of each subject.

R2. Conduct communication briefings for advertising agencies

R3 Make a media plan.

R4 Make a communication plan that corresponds to the brand plan.

Evaluation criteria

Students will work in the groups they were designated by their program directors to complete the different assignments throughout the subject.

Each group will choose one project (out of each member's Final Master Thesis) to work on the entire duration of the course. Groups may ask for guidance from one of the faculties in case they have doubts about picking one out.

Said groups will work on a digital marketing campaign incorporating the different concepts and ideas discussed in class.

Evaluation	
Case Study Assignment (Individual)	25%
Group Assignments (Team assignments)	50%
Participation (Individual)	25%

Important:

In courses that feature a final exam, a minimum grade of **4 out of 10** in the final exam is necessary for the other evaluation criteria to be taken into account when computing the student's overall grade for the course. Therefore, students who obtain less than a 4 out of 10 in the final exam will fail the course automatically. Those students will have to take a remedial exam (more details below).

MSc in Marketing – Digital Marketing

*The information contained in this document is for information purposes only and may be subject to change in the adaptations of each academic year. The definitive Guide will be available to students enrolled in the virtual space before the start of each subject.

Courses in the Program will generally include group assignments (case studies, projects etc.). At the end of each term, and in order to disincentivize free-riding behaviors, students will have the opportunity to evaluate the involvement of the rest of their team members in all group assignments that took place within the term. Students who obtain sufficiently poor evaluations from their team members will be penalized. The penalty will involve a reduction in the overall group assignment grades of **all** courses that include group assignments (max penalty: 20% reduction of those grades). More details on the topic are available on eCampus.

All the activities that are submitted past the deadline or that do not follow the submission instructions in terms of content, format, etc. will be considered as 'not submitted'. Students will be informed about the submission and presentation dates the first day of class.

Students are required to attend 80% of classes. Failing to do so without justified reason will imply a Zero grade in the participation/attendance evaluation item and may lead to suspension from the program

As with all courses taught at the UPF BSM, students who fail the course during regular evaluation will be allowed ONE re-take of the examination/evaluation. Students that pass any Retake exam should get a **5 by default as a final grade for the course**. If the course is again failed after the retake, students will have to register again for the course the following year.

In case of a justified no-show to an exam, the student must inform the corresponding faculty member and the director(s) of the program so that they study the possibility of rescheduling the exam (one possibility being during the "Retake" period). In the meantime, the student will get an "incomplete", which will be replaced by the actual grade after the final exam is taken. The "incomplete" will not be reflected on the student's Academic Transcript.

Plagiarism is to use another's work and to present it as one's own without acknowledging the sources in the correct way. All essays, reports or projects handed in by a student must be original work completed by the student. By enrolling **MSc in Marketing – Digital Marketing**

Bio of Professors

Daniel Stone has more than 12 year's experience working in Digital Marketing. He started working as an intern at a search marketing agency called e-interactive and worked his way up to Managing Director within 6 years. e-interactive was then bought by the biggest media agency in Spain, Havas Media. After 3 years working at Havas Media in various roles Daniel has now set up his own digital marketing agency called www.somosastro.com has also co-founded a technology start-up called www.smaze.io.

Daniel has worked with big and small companies such as Danone, Hesperia Hotels, Servihabitat, Camper and many more. Having always worked on agency side and with a wide variety of clients in different industries he has a good understanding of what companies need to do to optimise their digital presence.

Alberto Lempira Guevara is a Marketing & Business Development Consultant. He has a bachelor's degree in production engineering by Universidad Metropolitana (UNIMET) from Caracas, Venezuela. MSc in Marketing by UPF, Digital Marketing Postgraduate degree by Tecnocampus (UPF), Inbound Marketing Postgraduate degree by Inesdi Digital Business School and Transmedia Storytelling and Branded Content Postgraduate degree also by Inesdi Digital Business School.

Alberto worked in Political Marketing for more than six years. He has also been working on user acquisition, CRO, digital strategies, and advertisements for the last seven years. Alberto worked as the CMO of startups like UNIKS APP and been involved in the entrepreneurial scene in Barcelona. Also, he has worked as a consultant for the past years and is re-launching the consulting agency BoostingOut.
